

SECTION 1. WRAPAROUND IMPLEMENTATION

This Section should discuss how you plan to organize/operate Wraparound in your county.

I. ORGANIZATIONAL STRUCTURE

A. Organizational & Administrative Structure for Wraparound Implementation

1. Explain the proposed model you will use to implement Wraparound, e.g., a single lead agency, collaborative lead agencies, a public agency model, etc.
 - Things to consider: Is there a provider who has retooled or who has the capacity to be a lead agent? Is there a Medi-Cal certified agency with experience working with the target population? Does the county have a strong history of providing direct services to this population?

What tasks remain to be done related to deciding on a potential model?

Task	Responsible Person	Time frame
1)		
2)		
3)		

2. Describe the administrative structure.
 - Things to consider: Is there an existing administrative structure to support the model? If not, what modifications will need to be made to accommodate the model the county has chosen?

What tasks need to occur to so that there will be an administrative structure to support the proposed model?

Task	Responsible Person	Time frame
1)		
2)		
3)		

3. Explain why this model works best for your county. (How does it enhance and build on your strengths?)

B. Infrastructure for Developing and Maintaining Wraparound

1. Describe the interagency groups, family partnership groups, etc. that are in place or will be developed to support implementation of the Wraparound process and family-centered, strength-based principles.

New Groups	Strengths Relative to Wraparound	Time Frame

C. Community Team

1. Describe the group/structure/process that will be used to ensure that there is oversight/commitment to sustaining the Wraparound process by key stakeholders. Stakeholders include families, county agencies such as social services, public health and mental or behavioral health, county department of education, community service providers, schools, juvenile courts, probation, community leaders, advocacy groups, faith leaders, resources, etc.
- Things to consider: The Community Team is a collaborative structure, with broad representation that manages the overall wraparound process and establishes the vision and the mission. The community Team's primary goal is the achievement of a community partnership that champions truly individualized, unconditional, community-based care which embrace's each child's family, culture and community.

Is there an existing group to perform this function? Yes ☐ No ☐ If yes, who? _____. If no, is there an existing group with broad-based membership whose membership could be expanded or modified to perform this function?

 - Things to consider: the number of out-of county RCL 10-14 placements; total number of children/youth residents in RCL 10-14 group care; the model chosen; set yourself up for success – the number of SB 163 slots can be increased over time if needed; cost effectiveness issues etc.

B. Evidence and Informed Based Practice Standards

1. The CDSS *SB 163 & Title IV-E Wraparound Standards* issued in April 1999 are based on a document developed by the National Wraparound Initiative entitled "The Ten Principles of the Wraparound Process" (Bruns, E.J., Walker, J.S., Adams, Miles, P., Ohser, T.W., Rast, J., VanDenBerg, J.D., & the National Wraparound Initiative Advisory Group).

Describe how your county will support and maintain adherence to the values and principles identified in CDSS's Wraparound Standards. Please address current practices already in place and any needed elements that your program will use to support each of the following principles:

1. Family voice and choice.

Families and youth/child perspective are intentionally elicited and prioritized during all phases of the wraparound process. Planning is grounded in the family members' perspectives, and the team strives to provide options and choices such that the plan reflects family values and preferences.

4. Collaboration

Team members work cooperatively and share responsibility for developing, implementing, monitoring, and evaluating a single wraparound plan.
